## Introduction

The Massachusetts Board of Library Commissioners encourages libraries across the state to maintain three-to-five year strategic plans to help set priorities and achieve their missions and visions. Up-to-date strategic plans are also required for grant eligibility.

In Stoneham, the Library's five-year strategic planning process allows us to review progress on past strategic plans, assess current gaps and needs, and plan for the Library's future. In this unusual planning cycle, consultations with staff, community members, and other stakeholders helped us articulate broad themes and high-level goals for the Library to work towards. Being able to evaluate new opportunities and allocate resources in light of these core goals will help the Library remain a vibrant and relevant resource for Stoneham residents.

## **Vision Statement**

The people of Stoneham will view the Library as the principal provider of information for all of our citizens.

The people of Stoneham will view the Library as a welcoming institution that provides unbiased research resources.

The people of Stoneham will view the Library as the principal instructor in state of the art information.

The people of Stoneham will view the Library as a nurturing component of a Town that supports the moral, ethical and successful future of our youth.

The people of Stoneham will view the Library as a source of a variety of high quality services from print material for recreational reading to online resources for research and lifelong learning.

The people of Stoneham will view the Library as a Community Center in a revitalized downtown district and the primary disseminator of community information.

The people of Stoneham will view the Library as an institution that welcomes debate, discussion of new ideas, and offers a neighborhood touch in an impersonal wider world of 24/7 information.

## **Mission Statement**

A free public library is essential to the preservation and growth of our democratic institutions. The mission of the Stoneham Public Library is to ensure that all people of Stoneham have free and unfettered access to recorded information and ideas.

The Stoneham Public Library strives to provide its patrons with a welcoming atmosphere for lifelong learning, enrichment, and enjoyment via resources ranging from the written word to access to the latest technology. While offering these resources the Library also endeavors to provide instruction regarding their proper use and evaluation.

The Stoneham Public Library aspires to be the primary source of community information via cooperation with local agencies and organizations.

The Library offers a nurturing environment for groups, families and individuals and encourages the debate of new ideas while respecting the experience and knowledge of the past.

## **Assessment of User Needs**

The Library launched a survey in June 2019 seeking community input on facilities, collections, programs, and services. The survey was available online through Survey Monkey and in print at the Library. The Library received 193 responses, of which 147 were complete.

Respondents valued the Library's physical and digital collections highly but overwhelmingly wished for more hours and an updated facility. Survey questions and responses are included in Appendix II.

In September 2019, community members participated in two focus group discussions. At the same time, Library staff, the Board of Trustees, and the board of the Friends of the Library completed a SOAR (Strengths, Opportunities, Aspirations, Results) exercise led by consultant Barbara Alevras.

Participants valued the Library's helpful staff and collections. The condition of the facility and the support of the town as shown in relationships and funding were identified as key areas for improvement.

## **Goals and Objectives**

## Facility

Stoneham Public Library is a twenty-first century library in a turn-of-the-twentieth-century facility. The building was constructed in 1904, with additions completed in 1931 and 1984. A facilities assessment conducted by Building Evolution Corporation in 2021 confirmed what staff, trustees, and patrons have all reported: the building needs a multi-million-dollar investment to address long-standing issues, most crucially water management and HVAC systems.

#### Goal

Using the newly completed facilities assessment, the Library will work with the Town of Stoneham to create a plan and timeline to address the following urgent structural needs:

- Roof repair
- HVAC replacement
- Window refurbishment and/or replacement
- Carpet replacement and asbestos remediation

## **Objective**

The Library will work with the Town of Stoneham's Town Administrator, Facilities Department, Town Planner, Finance and Advisory Board, and other key stakeholders to align Library capital improvement requests with town-wide planning priorities.

- Sample activity: ensure Library is included in town-wide roof assessment and town-wide accessibility study by the Institute of Human Centered Design.
- Sample activity: identify vendors and get quotes for refurbishing historic windows.
- Sample activity: work with the Town Planner to identify grants, earmarks, and/or state appropriations to replace the failing HVAC system.

## **Objective**

While the Library's main focus will be on the building envelope and systems, the Library will also take steps to address staff and patron concerns about the building interior.

- Sample activity: conduct a space assessment through MLS.
- Sample activity: repurpose unused or under-used spaces such as the photography room on the mezzanine level.
- Sample activity: identify an appropriate space and vendor for a library coffee cart.

## Personnel and Hours

During the Great Recession, budget cuts forced the Library to reduce staff and operating hours. More than a decade later, these losses have not been made up. Staff are stretched thin across all departments, and patrons are eager for additional service hours.

## Goal

The Library will secure an annual budget that supports the restoration of lost staff positions and lost service hours.

## **Objective**

The Library will work with the Town Administrator, Finance and Advisory Board, staff unions, and other key stakeholders to determine staffing requirements.

• Sample activity: review existing staff positions and identify critical gaps.

#### **Objective**

The Library will work with the Town Administrator, Finance and Advisory Board, staff unions, and other key stakeholders to expand operating hours.

- Sample activity: review opening hours for potential earlier opening times.
- Sample activity: determine cost of additional weekend hours and explore funding options.

## **Collections**

#### Goal

The Library will continue to invest in physical and digital collections that support the town's diverse residents and their varying information needs.

## **Objective**

The Library will ensure that collections are current and accessible.

- Sample activity: create and implement a regular weeding schedule for all collections.
- Sample activity: shift from physical audiovisual collection (CDs, DVDs) to digital collections (ebooks, digital audiobooks).
- Sample activity: continue digitization of local history collection.
- Sample activity: expand Library of Things holdings.

## **Objective**

The Library will build and maintain collections that represent the full diversity of the town's population.

• Sample activity: highlight books with diverse protagonists in the Junior Room.

## **Services**

## Goal

The Library will continue to engage with community through physical and virtual services that inform, educate, connect, entertain, and support the whole community.

#### **Objective**

The Library will provide programs and services for all ages.

- Sample activity: host a monthly speaker series including local authors and historians.
- Sample activity: expand calendar of children's events to include weekend programming.
- Sample activity: expand adult programming to broaden appeal to multiple age groups in addition to seniors

#### **Objective**

The Library will partner with community groups in Stoneham to bring programming and services to a wide range of patrons.

• Sample activity: work with Stoneham Public Schools to support middle school students in the absence of a school librarian.

- Sample activity: expand Library's support for Stoneham Reads.
- Sample activity: partner with community organizations (e.g. Senior Center, Boys and Girls Club) to bring programming to wider audience

## **Objective**

The Library will provide the community with access to and support in using current and emerging technologies.

- Sample activity: build computer replacements into annual budget.
- Sample activity: set up makerspace and offer workshops and classes in using items such as the 3-D printer.

## **Marketing and Communications**

## Goal

The Library will engage with the community to build awareness of resources, programs, and services.

## **Objective**

The Library will use a range of channels to promote programs and services.

- Sample activity: send weekly updates to the Stoneham Independent.
- Sample activity: expand adult email list to expand awareness of library programming
- Sample activity: send monthly newsletters to adult patrons and Junior Room parents.
- Sample activity: expand physical marketing channels (e.g. yard signs, police box in Stoneham Square)

## **Objective**

The Library website will offer current, accessible information about programs, services, and resources.

- Sample activity: create process and designate key staff members to regularly update website.
- Sample activity: conduct an environmental scan of local library websites to identify areas of improvement for Stoneham.

## Fundraising/Community Support

## Goal

The Library will deepen community engagement through fundraising and volunteerism.

## **Objective**

The Library will reestablish an active Friends of the Library group.

- Sample activity: recruit new president/co-presidents for Friends of the Library.
- Sample activity: reestablish mailing list for Friends of the Library.

## **Objective**

The Library will recruit an active base of volunteers.

• Sample activity: develop and maintain project list for volunteers.

## **Objective**

The Library will facilitate volunteer engagement across the town of Stoneham.

- Sample activity: provide opportunities for Stoneham community organizations to recruit volunteers.
- Sample activity: support community organizations by providing meeting rooms and other support.

## **Planning Process**

Long range planning for this cycle began in the summer of 2019 with the launch of a community survey that patrons could complete in print or on the library website. The Library received 147 completed surveys. Survey questions and a summary of results are included in Appendix II. Community input was also provided through two focus groups hosted by the library in September 2019.

At the same time, consultant Barbara Alevras led staff, members of the Friends of the Library, and the Board of Trustees in a SOAR (Strengths, Opportunities, Aspirations, Results) exercise to surface key themes, challenges, and goals. Results of the SOAR exercise are included in Appendix I.

In March 2020, the strategic planning process was interrupted with the onset of the COVID-19 global pandemic and emergency shutdowns.

In May 2021 a strategic planning subcommittee was formed, with library trustees, staff, and community members representing a variety of perspectives. The subcommittee met virtually in August 2021 to review survey results and discuss the Library's needs and goals. Kristi Chadwick of the Massachusetts Library System met with the subcommittee in October 2021 to discuss the Library's challenges and goals.

The subcommittee held a final meeting in September 2022 to finalize a draft of the plan.

If you have one or more additional SPL aspirations we should capture in our final SOAR results, please list them.

<sup>1</sup> Increase in Staffing NOTE: N/A: IDEA-A specific tactic (task) vs. an aspiration.

With safety, be more proactive when alarms go off. Many times metal detector goes off and people just brush it off. To possibly have a police officer occasionally check up on things and safety concerns. I feel that anybody can just walk in. Would like better security. NOTE: NA: IDEA-A specific tactic (task) vs. an aspiration.

When talking about furniture and such, I think it would be great to get patrons' input on remodeling and such and what they would like to see for furniture and comfort. NOTE: N/A: IDEA-A specific tactic (task)
