

Stoneham Public Library  
431 Main Street, Stoneham, Massachusetts 02180

## Daily Closing Time Policy

A fifteen minute warning will be given before the library closes for the day. At that time it is important that you take all material you wish to check out to the Circulation Desk.

The Library's computers shut off automatically five minutes before closing. Once they shut down work cannot be recovered. If using a computer, copier, or printer, the warning will serve as a reminder that you should end your task quickly or risk losing your work.
